Everybody is waiting for the amazing breakthrough that would change the. The number one reason why is that "The Newsleecher 3.9" software is not available for free and. that has a release

---

date this year for other Operating systems "Newsleecher. first piece in the series will be a novelty one about the history of MCU costumes, as revealed by Vic Mignogna. In coming weeks we will be releasing various author interviews about specific topics, as well as so-called "series commentary", but the first one covers a fairly recent discussion topic: the history of MCU costumes. This piece was just the result of the idea by Nick Da Capo, the editor of this site, about what could be the

---

perfect MCU movie costume for the current state of the fandom. Rather than just focusing on the characters that we already have, there were many great ideas that could be included, like Captain America, Iron Man, Thor, Hulk, Black Widow, Falcon, the Winter Soldier and so on, but instead of covering such a wide field of characters, Nick decided to ask Vic Mignogna which MCU costume he'd like to see if he was in the role as a character. Nick wrote to Vic on Twitter, who was

---

enthusiastic about the idea, but almost immediately suggested some changes for the interview and made some jokes about certain characters which were probably not very welcomed. Thus, Nick edited the piece very carefully without some of Vic's jokes. It was a lot of work, but we believe you will find it worth it. If you want to pre-order the limited edition, you can do so [here](#). The idea to do this interview came out of the new roleplaying forum I'm now in, which is also being published here on

MCU Reality. So, if you're a fan of the MCU and want to have a more intimate conversation with other fans about the subject, check it out! Here's the interview, which Vic does not see, so you will have to imagine him saying these lines: Nick Da Capo: What MCU Costume would you like to wear? Vic Mignogna: "Yeah I'm in Cap right now, or you can make it into my Iron Man"
