IM Lock Professional Torrent

The most powerful and effective way to block out unwanted sites. Block Access to Unwanted Sites, Browsers and Programs! IM Lock Professional Product Key - Internet Security/Anti-Virus Tools... IM Lock Professional Crack Mac is a software application that allows users to block access to different websites and programs. Once you run it, you are required to set up a master password and specify your email address, in case you forget it. It boasts a clean and intuitive interface that offers quick access to the main functions. IM Lock Professional Crack Keygen allows users to create a list with the websites to be blocked, by inserting valid URLs, as well as to specify the sites that can be accessed by other users. In order to simplify the entire blocking process, the application comes packed with different preset categories, such as instant messaging programs (e.g. Yahoo Messenger, MSN, Jabber Messenger), P2P networks (e.g. Direct Connect, Morpheus), web messengers (e.g. AIM Express), web browsers (e.g. Netscape, Firefox, Internet Explorer, Opera), media players (Real Media Player, Windows Media Player, QuickTime Player), as well as emails, downloading sessions and online games. Furthermore, it is possible to block access to different programs by specifying the name of the program, as well as disable Task Manager, Registry Editor, MS Config, Control Panel and others. The "Porn Blocker" section allows users to create a list with different keywords. The built-in scheduler helps you set up multiple blocking sessions by specifying the day and time interval. The entire activity can also be logged, and you can save the information to plain text or CSV. Daily reports can be emailed to the specified address at the given hour. Other important features worth mentioning give users the possibility to customize the notification messages, as well as select the users to block. Once you have configured the dedicated parameters for each option, you may enable or disable the

protection mode with just one click. All in all, IM Lock Professional Full Crack comes packed with many useful features and a straightforward layout for helping you set up restrictions for different websites and programs. IM Lock Professional Crack+ Registration Code Free For PC [Latest 2022]

IM Lock Professional allows you to create a list of blocked websites and programs, and restrict access to them through the built-in scheduler. Comodo Firewall allows you to protect your computer from malware and other online threats. With its internet security features, you can block communication through instant messengers and web browsers. Moreover, you can set up comprehensive rules to block websites and prevent certain apps from running. It also gives you the possibility to scan files before they are downloaded. The application comes with several options and settings to help you set up the security policy you prefer. Additionally, it allows you to manage multiple profiles for various networks. Moreover, it has an advanced firewall engine that allows you to block incoming and outgoing communication. Comodo Firewall Description: With Comodo Firewall, you can block communication through instant messengers and web browsers. Norton's AntiVirus 2010 is a great malware removal software that allows you to protect your computer against malware and other online threats. With its comprehensive protection features, you can prevent your computer from getting infected with spyware, adware, virus, trojans, and worms. It also comes with a quick, simple, and easy-to-use interface that lets you scan files without installing additional components. Furthermore, you can scan multiple files at once, and set up restrictions and other advanced settings. In order to simplify the entire malware blocking process, Norton's AntiVirus 2010 offers several quick and easy modes. In the first mode, you can run a quick scan for malware and other threats. If any malware has been found, the application gives you the option to remove it by choosing the option that corresponds to the detected threats. The same function is also available in the "Advanced" mode. The "Custom" mode allows you to customize your own protection settings, such as time limits for different types of threats, as well as file and email scanning. Moreover, you can set up numerous email filters to let the application scan messages as soon as you receive them. Norton's AntiVirus 2010 Description: Norton's AntiVirus 2010 allows you to protect your computer against malware and other online threats. BeWatcher is a software application that allows you to protect your computer against malware and other online threats. With its internet security features, you can protect your PC from spyware, adware, viruses, worms, troj
