Reason and Purpose of the Islamic Teachings: A Critical Study of the Philosophies of Iqbal, Mawdudi, and the Neo-Iqbalists. Q: I am using Codeigniter HMVC to modularize my code, but there are some issues I am using Codeigniter HMVC to modularize my code but i have a few problem. Problem #1: I need all images src to be in the system/public folder and not in the modules directory. I had an idea to override the load() function with this line: \$this->load->vars(array( 'upload\_folder' =>'system/public/uploads/', )); In this way I can load the images like this: \$this->load->view('upload/index.php', \$data); But I am getting the following error: Fatal error: Cannot use object of type CI\_Upload as array in C:\wamp\www\sebastian\application\modules\upload\Controllers\uploadController.php on line 69 If i replace the line: \$this->load->vars(array( 'upload\_folder' =>'system/public/uploads/', )); with this: \$this->load->vars(array( 'upload\_folder' => './system/public/uploads/', )); it works, but now i can't load the files without having to load the folder "system".
